

---

**DISCUSSION PLAN: Answering**

---

1. What would you rather receive, a true answer that isn't very interesting, or an interesting answer that isn't true?
2. Would you rather get an answer from someone else, or find out the answer to your question yourself?
3. Would you rather ask questions or give answers?
4. Do you sometimes like to think about a question, even though you know that no one may know the answer?
5. Do you sometimes get an answer to your question, and then ask the same question again?

---

**ACTIVITY: The "How True Was My Answer?" Game**

---

Each person will be asked a question. After you have given your answer, you will have to decide whether you think your answer was (1) completely true; (2) mostly true; (3) a little bit true; or (4) not true at all.

If you think your answer was completely true, stand up.

If you think your answer was mostly true, remain seated.

If you think your answer was a little bit true, sit on the floor.

If you think your answer was not true at all, lie down on the floor.

Here are the questions:

1. How many letters are there in your first name?
2. Can a person be at school and at home at the same time?
3. Can a Wednesday ever fall on a weekend?
4. Do cats like lettuce?
5. Do rabbits have short ears?
6. Do television stations look like railway stations?
7. Can a plant be a person?
8. Does the moon sometimes seem to have a face?
9. Can you catch a cold?
10. Are you ever wrong?

**NOTE TO TEACHER:** Depending upon how many students you have, you can use one question for more than one student. Afterwards, have the students who were asked the same question to gather into a group and discuss their answers and their reasons for standing or sitting as they did.
