

---

**EXERCISE: Compatible and incompatible roles (p. 4, line 27)**

---

Can a person be a father and a furniture maker at the same time?

Can one and the same person, at one and the same time, be:

1. an uncle and an aunt?
2. a farmer and a neighbor?
3. an uncle, a farmer and a story-teller?
4. a grandfather, an uncle, a story-teller and a sleeper?
5. a grandmother, a daughter, a mother, an aunt and a truckdriver?
6. a neighbor, a cousin, a friend, a businessman, a father, and a son?
7. a neighbor, a distant cousin, a carpenter, a brother-in-law, and a wife?
8. a baseball fan, an amateur actor, a professional football player, a grandson, and an amateur football player?
9. a scholar, a trouble-maker, an uncle, a stamp-collector and a taxpayer?
10. a prisoner who has been convicted of a crime and an innocent man?

---

**EXERCISE: Roles (p. 4, line 27)**

---

If you play the part of a prince or princess in a play, that is your *role*.

If you are a monitor in the halls this week, that is your *role*.

If you are a crossing guard, that is your *role*.

If you are a student in a school, that is your *role*.

When a number of people all have things they are expected to do in certain, definite ways, then each person can be said to play a *role*.

What roles, if any, are played by the following:

1. the person who sits behind the desk in the front of your classroom?
2. the people who live in your apartment or house?
3. the people who fight crime?
4. the people who talk on television?
5. the people who work in factories?
6. the people who work in hospitals?
7. people on boats?
